August 26, 1963

SUBJECT: Soviet Military Personnel in Cuba.

QUESTION:

Do you have any real hope the Soviets will withdraw their troops from Cuba?

BASIC Q.D.:

NSIP estimate being supplied separately.

SUMMARY STATEMENT:

Our intelligence indicates that Soviet troop withdrawals from Cuba are continuing. Since I last spoke with you about this matter in April, a few thousand more Soviet military personnel have left Cuba while only a few hundred have entered the country. Our information indicates that training of Cubans has become the principal task of the remaining Soviet military personnel in Cuba. We would expect that this process of retraining would continue during the months ahead as training programs are completed.
